Miele

# It's only impossible until somebody does it.

#LifeBeyondOrdinary

The new Miele G 7000
Dishwashers

I want to experience things that no one else experiences.

That is exactly what I want in every detail of my life.

Marina Kazankova, world record holder in freediving

Impressed by everything she does:

World record holder in freediving,

Marina Kazankova.

After her father took her diving when she was a little girl, her passion was awakened. She has dedicated herself to this extraordinary sport ever since and has delivered outstanding performances again and again, such as her 154-meter world record in distance diving. But no matter how many records she has already set, she still wants more – to be first and experience things nobody else experiences.

This is exactly what Miele makes possible. Just like Marina Kazankova, Miele sets new standards. As proof of this, Miele presents the world's first dishwashers with the AutoDos cleaning system and integrated PowerDisk®, which dispenses detergent automatically.

Limits? There are none.

| 3

The most innovative dishwasher we have ever built.

The Miele G 7000 Dishwashers dispense automatically and start by themselves.

Having the time and freedom to do the things that matter to you the most is more important than ever. With Miele, you'll experience expanded flexibility – leaving the 'work' to your dishwasher. Thanks to AutoDos with integrated PowerDisk® and AutoStart technology, perfect results are achieved...automatically!

Innovative AutoDos *with integrated PowerDisk®*

This world's first dishwasher that automatically dispenses detergent for up to one month.*

*20 cycles based on average household use.

Smart Solutions

Enjoy helpful functions designed to make your life easier:

/ AutoStart: *Use the Miele@mobile app to automatically start your dishwasher at pre-determined times.*

/ MobileControl: *Simply start your G 7000 Dishwasher using the free Miele@mobile app – from anywhere at any time.*

/ ShopConn@ct: *Order detergent such as PowerDisks® with the Miele@mobile app with only a few clicks.*

FlexLine Baskets

The new G 7000 FlexLine Dishwasher Baskets offer incredible flexibility for loading and cleaning all kinds of dishware and utensils perfectly. One of many examples: with movable sections, the 3D MultiFlex Tray makes space where there wasn't any before.

More information on Miele G 7000 Dishwashers is available here.

Auto
Dos
Innovation

Re-writing the rules for dispensing.

World's first: AutoDos with integrated PowerDisk®.

Power
Disk®
Innovation

G 7000 Dishwashers can do what no conventional dishwasher can. With the AutoDos cleaning system, Miele has developed a true innovation. The integrated PowerDisk® automatically dispenses the correct amount of detergent in accordance with the selected program and degree of soiling. The perfect interaction between cleaning, drying, and gentle handling – that's what it takes to achieve optimum results.

The PowerDisk®

The PowerDisk® revolutionizes dishwashing. It turns several times to ensure that the ideal quantity of powder detergent is always dispensed in accordance with the selected program and the degree of soiling.

Particularly practical: the contents of one PowerDisk® **last for** approximately **one month** – around 20 cycles*.

The detergent

A special dishwasher deserves special detergent. Here too, Miele thought ahead and developed a powder detergent that precisely complements the G 7000 Dishwashers, each enabling the other to work to their full potential.

You can also enjoy maximum user convenience – either using the automatic AutoDos dispensing system or dispensing tabs (or powder) via the standard dispenser.

The result

Thanks to the innovative AutoDos cleaning system with PowerDisk® you can achieve outstanding results. Whether cleaning, drying, or gently treating your dishware – the performance of the new G 7000 Dishwashers meets the highest of standards.

All this whilst ensuring maximum flexibility and convenience.

* based on avererage household use.

Experience freedom like never before.

The combination of AutoDos and AutoStart makes the G 7000 Dishwashers autonomous.

Miele has reinvented dishwashing. No matter where you are, with the Miele@mobile app you can put your G 7000 Dishwasher to work at any time.

We call this MobileControl. Thanks to AutoStart, you have the additional option of programming your dishwasher to automatically start at one or several pre-determined times.

Smart Solutions
/New

AutoStart

With the new AutoStart feature and the Miele@mobile app you can set G 7000 Dishwashers to automatically start at one or several pre-determined times. Thanks to AutoDos with integrated PowerDisk® there is always detergent available so the appliance can get to work completely autonomously. Starting it manually is no longer required. And running out of clean dishware because you forgot to press the start button is now a thing of the past.
MobileControl

Monitor, start, and control your G 7000 Dishwasher conveniently with your smartphone or tablet from wherever you are at the moment. With the free Miele@mobile app you can keep an eye on the fill level of the PowerDisk® or the time remaining on your current program.

ShopConn@ct

You no longer have to remember to buy detergent. The free Miele@mobile app makes it easy for you to order new PowerDisks® and have them conveniently delivered to your home.

New space to improve cleaning results.

The new FlexLine Baskets open up previously unimagined possibilities.

The new G 7000 Dishwashers create new space for perfect cleaning. The right-hand section of the new 3D MultiFlex Tray can be lowered to accommodate small items such as espresso cups and shallow bowls. And the left-hand section can be moved to provide space for long-stem glasses in the upper basket. Split rows of hinged spikes in the upper basket allow bowls to be perfectly positioned with optimum spacing. In combination with the innovative AutoDos system, this achieves better results than ever before.

FlexLine Baskets

/New

3D MultiFlex Tray

Experience unique flexibility for perfect utensil and dishware care. The height, width, and depth of the tray are adjustable to suit any type of load. The height-adjustable side section ensures that you can easily position small items too. And a movable side section even enables you to position long-stem glasses in the upper basket.

FlexCare Glass Holders and Cup Racks

The FlexCare Glass Holders and Cup Racks have been redesigned for greater flexibility and convenience. The FlexCare Glass Holders in the lower basket are ideal for long-stem glasses and now feature a MultiClip – perfect for accommodating light plastic items. A completely new feature is the FlexCare Cup Rack in the upper basket – ideal for cups as well as for long-stem glasses.

Flexible Upper Basket Configuration

The upper basket has been equipped with split-hinged rows of spikes. Allowing you to adapt the space to meet your individual needs. Ensuring optimal cleaning and drying results.

The only way to be the best is to ensure perfection even in the smallest of details.

World record holder Marina Kazankova only accepts perfection.

That is why she would always opt for Miele.
